KNOW HOW

since 1973

OUR FOUNDATIONS

MP ILLUMINATION - MARINOS PATRIKIOS, specialises in designing and producing indoor and outdoor architectural luminaires.

Operating since 1973, the company's successful progress lies in the excellent knowledge of lighting technology, the use of high-end engineering, the application of safety standards, and the modern aesthetic designs. In MP ILLUMINATION we design and manufacture architectural lighting according to the latest developments and technological achievements.

Our partners-suppliers are international market leaders and trend setters and we make sure that our products incorporate high-end elements, whereas our clients are top lighting projects companies, architectural companies and engineers recognized internationally.

Our production line consists of more than fifteen categories that cover the complete range of indoor and outdoor luminaires, ideal for every demanding application, such as company offices, commercial centers, museums, airports, hospitals, public buildings, hotels, educational institutions, modern residences, public spaces, streets, ships, factories.

Our company's central offices, showroom and factory are situated in Athens, at Skaramangas Industrial area, next to the shipyards, in privately owned premises of 7.000m².

THE PRESENT AND THE FUTURE

MPILLUMINATION
MARINOS PATRIKIOS ARCHITECTURAL LIGHTING

Our company's mission has always been to offer complete lighting solutions for any space, following the aesthetic needs and technology progress and focusing on in quality to every aspect.

Starting from the Greek market, MP ILLUMINATION has created a network of wholesales with many important customers like wholesalers, architects and technical companies all over the country.

Throughout the years, the company has gradually expanded its activities in more than 40 countries all over the world, forming strong business relations with many lighting importers and designers and has had the honor of being in the list of approved manufacturers in many prestigious lighting projects worldwide.

MPILLUMINATION, always maintaining its family business structure, is growing by following the same values and pursuing the research and innovation of its founder.

The next generation of MPILLUMINATION, having inherited an immense wealth of technical skills and passion for lighting ideas, is determined to follow the same mission.

And so, the story continues....

1973

2018

Our global network.

MORE THAN 45 YEARS OF EXPERIENCE IN LIGHTING

In over 45 years of work we realized that the key of success is based on some important values: professionalism, attention to detail, fairness, flexibility, service and speed. Our philosophy is based on these values and has led us to built strong partnerships through the years.

100% Greek products

The whole production of MPILLUMINATION is carried out in our privately owned premises in Athens, under the continuous supervision of the management: from manufacturing and assembling to wiring and final testing.

We don't only assemble the luminaires but, we carry out the whole process from creation and design stages and we also take care of each single step of the manufacturing process. This allows us to make prototypes and made-to-measure fixtures rapidly and with excellent quality standards and it is one of our strong competitive advantages in the international market.

Design

Design & development of new collections in MPILLUMINATION are inspired by trends in architecture, driven by progress of technology and based on the needs of the international market. The design of each new product combines shape, material, functionality, flexibility and technology, aiming at creating added value for all parties involved in lighting either by selling, specifying, installing or just enjoying the light result.

Our designing department is structured in such way so as to develop new standard products and at the same time, satisfy the demands of various designers with new models.

CUSTOMIZATION INNOVATION DIFFERENCE

MPILLUMINATION
MARINOS PATRIKIOS ARCHITECTURAL LIGHTING

CUSTOMIZATION

Our technical competence, intelligent innovation and knowhow in production and design enable us to respond very flexibly to our customers' requirements and also realize specially tailored LED-solutions in a short time.

We are a close partner for our customers, as the skills and experience we have gained make it possible for us to provide fast and accurate customized solutions for every project.

SPEED & FLEXIBILITY

The commercial service is extremely fast and flexible with personal care for each customer.

By using our experience and our investment in technology and machinery, our sales department, in cooperation with production and logistics management can achieve very fast delivery times heading for few days from small projects and few weeks for bigger ones.

VARIETY

MPILLUMINATION provides an one-stop-shopping solution for your projects.

Our catalogues and website include thousands of items, offering a wide range of materials for indoors and outdoors use, with impressive combinations of materials, colors and versions, frequently updated with the development of new items.

Our constant aim is to provide flexible solutions that can meet even the most complex aesthetic and functional needs.

From shopping centers, to entertainment venues, museums, schools universities, hospitals, our products integrate discreetly in every architectural context.

QUALITY

Throughout the entire production process MPILLUMINATION distinguishes itself by handling the strictest quality parameters, to ensure products and services are designed and produced to exceed customer requirements. Every step in the production process has a routine quality procedure, covering both product quality and testing. As such, each product that leaves MPILLUMINATION, has been inspected and tested thoroughly, resulting in maximum efficiency.

During the entire production our engineering team of professional technicians is fully committed to develop top quality fittings that comply with high efficiency rates, energy saving and long-lasting standards of life.

MP ILLUMINATION is cooperating with industry leaders in research of raw materials and lighting accessories.

The lighting fittings of MP ILLUMINATION are manufactured, checked and tested in compliance to the general standard of the European Union for lighting fittings EN-60598 and they are CE marked on their bodies and packing boxes

Furthermore, MP ILLUMINATION is certified with ISO 9001 from DQS GERMANY, for the quality management system processes and internal activities.

RESEARCH & DEVELOPMENT

Research and development are one of our most important sectors in MPILLUMINATION.

Supported by high investments, the projects are entirely developed within the company, from the design phase to the prototype, from the thermal and photometric analysis to the optics design and components selection.

The constant guideline is the research of quality and lighting performance excellence.

ONE STOP SHOPPING SOLUTION

LIST OF INTERIOR LIGHTING PRODUCTS

LINEAR LED LUMINAIRES RECESSED / SURFACED / SUSPENDED

LIST OF EXTERIOR LIGHTING PRODUCTS

WATER PROOF WALL FIXED LUMINAIRES / LED WATERPROOF PROJECTORS

LED DOWNLIGHTS / TRIMLESS / SEMI TRIMLESS / WALL WASHING

WATER PROOF LINEAR LUMINAIRES / WATER PROOF GROUND-BURIED LUMINAIRES

LED TECHNOLOGY

MP has carefully followed up by the constantly evolving LED technology. We have believed and invested in new technology, so much that today more than 90% of the full range is available in LED version.

Thanks to technology progress the latest led modules are very powerful and ensure better efficiency, lower consumption, higher reliability and long life duration.

Our led collection makes it possible for lighting designers to create different lighting scenes, from accentuation to ambient, wall washing, orientation or open area lighting, selecting from a wide range of beams, filters, lenses and other accessories.

CEILING MOUNTED / TRACKLIGHT / PENDANT LUMINAIRES / STEP LIGHTS

LIGHTING STUDIES & PLANNING

MP ILLUMINATION's Lighting Design team provides to our clients unique lighting and photometric studies, and energy saving and consumption reduction proposals illustrated in AUTOCAD and other lighting programs.

Combining extensive product knowledge with a wide range of energy efficient product solutions, MP is able to guide you through a cost-effective and sustainable selection process, without compromising the quality of light.

WALL RECESSED / CEILING MOUNTED AND WALL FIXED / GARDEN LIGHTS

ECOLOGICAL CONSCIENCE

eco

MP ILLUMINATION promotes its ecological conscience and invests in energy saving technologies.

MP is shareholder of FOTOKYKLOSI S.A., a recycling company for lighting fittings and lamps approved by the Greek MINISTRY of ENVIRONMENT & ENERGY.

Our prime principle is to design and develop lighting fixtures of high quality standards that incorporate energy saving lamps and latest LED technologies, aiming towards reduction of power consumption and promotion of environmental protection.

EXTENDED GUARANTEE

The standard guarantee of a wide range of MPILLUMINATION products can be extended up to 5 years, upon official request for special projects.

This is possible due to the selection of finest accessories and electronic components (leds and led drivers) in our luminaires from the world's leading companies in quality and due to the attention in heat dissipation systems and quality control, so as to achieve the best results in performance and life duration.

COMBINATION OF QUALITY AND PRICE

Mp illumination products have always been considered as a good value for money choice, due to the attention given to quality and selection of each part of the products, while a very competitive price level is maintained.

Continuous cost analysis allows us to improve production process at all stages, so as to achieve the best possible prices without any compromise in quality, design or technology.

Special prices for projects are achieved after negotiation with our suppliers, making it possible to compete, always following projects specifications and photometric needs.
